

A Fast, Easy-to-Use Banner Experience Inside Your Campus App

Using Modo's turnkey integration with Ellucian's Banner Student solution, you can provide students and faculty with a fast, elegant Banner experience directly within a Modo-powered desktop or mobile app.

Empower students with easy access to their class schedule, registration status, grades, advisor information, financial transactions, and more. Say goodbye to the hassle of navigating clunky Banner webpages on a smartphone, or making students jump between multiple sites to find out essential information.

Modo's API-based Banner integration also leverages Modo Campus' built-in theming, accessibility, and deep linking to other app content, enabling you to create a seamless experience for your campus app users with no code and little effort required. It also captures and preserves the detailed business logic you've built in Banner, so data is consistent regardless of how users access your SIS.

Why Use Modo to Power a Modern Banner Experience

In addition to a seamless, easy-to-use UI, Modo's Banner integration provides a substantial performance improvement over other API-based Banner integrations. The same experience can easily be extended to desktop user with no additional work, eliminating the need to maintain a separate student portal solution. And with out-of-the-box ready modules and widgets, you can have your Banner integration up and running quickly.

Banner Widgets	Features
My Profile	Personal & Contact Information Residency Info Emergency Contacts Major/Minor
My Classes	Class Schedule (Day & Week views) Class Details Other Info (e.g., instructor, grading bases, campus & location, instruction mode)
My Finances	Account Summary Financial Aid
My Advisors	Advisor Contact Information Walking Directions to Advisor
Student Records	Holds Grades
My Enrollment	Enrollment and Registration Status by Term Course Catalog

Requirements

Modo's Banner integration uses the Ellucian Ethos framework, along with Ethos Data Access, to deliver a fast, modern, and flexible solution for both hosted and on-premise Banner environments. Detailed requirements and guides are available from Modo.
