

# Streamline Learning with Modo's Canvas Integration

Give your students fast access to grades, courses, and more directly from your campus app or web portal.

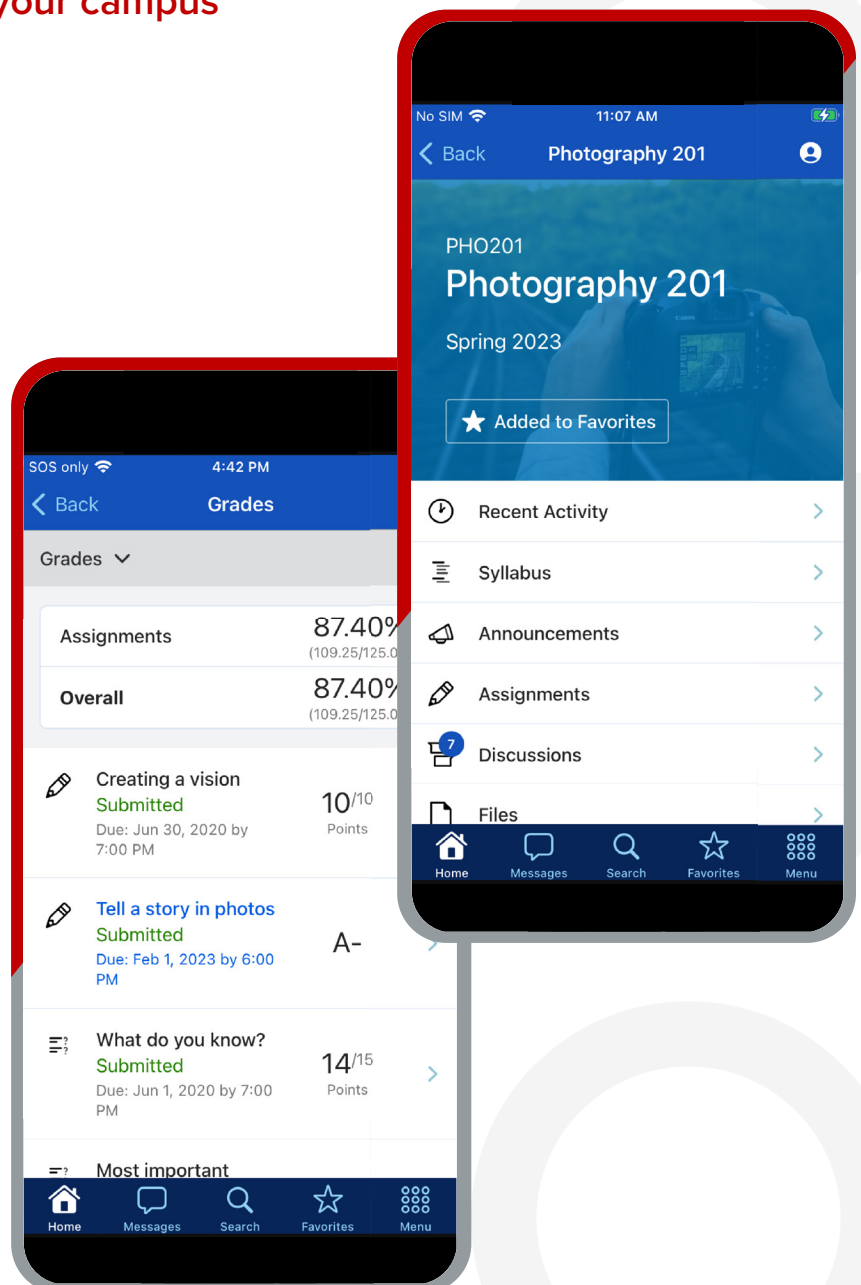

Make your students' academic life more manageable with Modo's native Canvas app integration. Put an end to the hassle of navigating multiple screens, switching between apps, and taking screenshots of class schedules. Now your students can access their schedules, course information, grades, due dates, and messages from instructors or classmates directly from your Modo-powered campus app or web portal.

## Why Use Modo's Integration With Canvas?

**Simplified access:** Access grades, announcements, and more in one place, viewable through a personalized dashboard.

**Organized Learning:** Neatly manage and share course content and discussions.

**Collaboration:** Facilitate discussion forums and group projects directly within the app.

## Key Functionality to Support Your Students

**Home Screen:** Provides a centralized screen from which students can access their Canvas information, including current and past courses, announcements, and events calendar.

**Notifications:** Keeps students informed with an aggregated list of notifications across all courses.

**To Do List:** Enables students to view a list of their to-dos and associated due dates.

**Messages:** Allows students to view, create, and reply to messages for all their courses.

**Calendar:** Replicates the student's events calendar from Canvas.

**Courses:** Gives detailed information about their courses.

**Announcements:** Gives students an aggregated view of announcements across all courses.

**Assignments:** Provides a view of assignments, due dates, and submission details.

**Discussion:** Engages students in group conversations by viewing, creating, and replying to discussions.

**Grades:** Displays students' grades for all their courses, which they can filter by assignment group, due date, and title.

**Modules:** Provides details to all their course modules and module details (the first 100 items).

**Pages:** Displays any course pages used to provide additional information.

**People:** Gives students visibility into their class rosters.

**Quizzes:** Provides visibility to quiz and survey details for their courses.

**Recent Activity:** Provides students with the ability to view all the recent activities related to a course, including assignment updates and announcements.

**Syllabus:** Provides students the ability to view their course syllabus.

**Widgets:** Brings the most important information a student needs to succeed front and center to create a highly personalized app home screen.
